The website for ARK-SHELTER features a large, modern modular building with large glass windows and a dark exterior. The text "New way of living." is prominently displayed in white, with a smaller tagline "Change the way you live life, closer to nature." Below the main image, there are three smaller sections: "Nr. 01 Live in ark" (Learn more about arks to live in), "Nr. 02 Work in an ark" (Learn more about office arks), and "Nr. 03 Relax in an ark" (Learn more about arks at home). At the bottom, there are links for "Nr. 01 Our philosophy for arks", "Nr. 02 Back to nature", and "Nr. 03".

What's Ark-Shelter?

Ark-Shelters are prefabricated, fully finished, modular units. By a lake, deep in a forest, at the edge of a field, a steep mountain hill or your city rooftop! Make your dream come true, installed in one day, no extra on-site work.

The shelters are built in one piece, which gives the incredible mobility to reach your dream location. Modularity ensures that over time you can grow your Ark to your needs. The units are created by craftsmen in our factory.

We have ideal conditions and are able to reach the highest details and reduce production time. Which allows us to keep control of the price, remove any onsite construction constraints and make your dream home, on time, on budget, at the highest quality possible.

Somewhere between staring at the screen and tilting my head the magic is done.

I'm Tomáš Sebastian Steinböhöbel, a digital designer born&raised in Bratislava, Slovakia. Currently, I'm looking for a skillful team to join and learn some new badass skills while creating functional design. Pleased to meet you already.
